

Curriculum vitae Dr. Rita Grandori

Personal data

Born in Milan, Italy, on 20/02/1961

Gender: Female

Nationality: Italian

Speaks and writes: English, German and Italian

Email: rita.grandori@unimib.it

ORCID 0000-0002-6683-9971

Present position

- Associate professor of *Biochemistry* (BIO/10) at the Department of Biotechnology and Biosciences, University of Milano-Bicocca, Milan, Italy (since 1 Nov 2005)
Address 1: Piazza della Scienza 2 (bldg BIOS, U3), 20126 Milan
Address 2: Via Raoul Follereau 3 (bldg KYTOS, U28), 20854 Vedano al Lambro (MB)
- Scientific responsible of the Departmental Mass-Spectrometry service (since 2007)
- External Staff Member of the Computational Biomedicine Unit, Institute for Advanced Simulations (IAS-5 / INM-9), of the Forschungszentrum Juelich, Germany (since 2021)
- Member of the Doctorate College "Neurosciences", University of Milano-Bicocca (since 2023)
- External member of the Doctorate College "Nano-Analytics of Cellular Systems" (NanoCell) of the Institute of Biophysics, Johannes Kepler University, Linz, Austria (since 2014)
- Specialty Chief Editor of the *Protein Structure and Dynamics* section of the Journal *Frontiers in Biophysics* (since 2023)

Education and academic degrees

1980: Scientific high school diploma (full notes) Liceo Scientifico Paolo Frisi (MB)

1984: *Laurea* in Biological Sciences (magna cum laude), Department of General Physiology and Biochemistry, University of Milan. Thesis title: "Structural and catalytic properties of Glutamate Synthase from *Azospirillum brasiliense*".

1989: Doctorate in Cellular and Molecular Biology, Department of General Physiology and Biochemistry, University of Milan. Thesis title: "gp115, a membrane glycoprotein of yeast. Individuation of the biosynthetic pathway and initial genetic characterization" (no score was given).

1991: Specialization Certificate in Biotechnological Applications (magna cum laude) of the Advanced School in Biotechnology, Department of General Physiology and Biochemistry, University of Milan. Thesis title: "Analysis of the multigenic family encoding for the lipase of *Candida cylindracea*".

1996: University researcher, Princeton University, Princeton, NJ.

2002: Austrian National Habilitation in *Protein Science*, Faculty of Natural and Technical Sciences of the Johannes Kepler University. Thesis title: "An interdisciplinary approach to the investigation of protein structure, function and folding".

2005: Habilitation ("idoneità") in *Biochemistry*, University of Milano-Bicocca.

2008: Tenure as Associate Professor of *Biochemistry*, University of Milano-Bicocca.

2014: Italian National Habilitation as full professor of *Biochemistry* (BIO/10), renewed till 24/09/2024.

2017: Italian National Habilitation as full professor of *Analytical Chemistry* (CHIM/01), till 01/12/2023.

2017: Italian National Habilitation as full professor of *Applied Physics* (FIS/07), till 05/12/2023.

Previous appointments

03/1985-02/1989: Research Assistant, Department of General Physiology and Biochemistry, University of Milan.

03/1989-01/1991: Researcher of the Biotechnology Center (CTB), Rome, under detached service assignment at the Department of General Physiology, and Biochemistry, University of Milan.

09/1989-04/1992: Research Assistant, Department of General Physiology, and Biochemistry, University of Milan.

09/1990-01/1992: Visiting Researcher, European Molecular Biology Laboratory (EMBL), Heidelberg, Germany.

04/1992-06/1996: Post-doc, Department of Chemistry, Princeton University, Princeton, NJ.

07/1996-03/1997: Research Staff Member, Department of Chemistry, Princeton University under detached service assignment at CAME, Institute of Biochemistry, University of Salzburg, Austria.

11/1996-11/1997: Research Associate, Center for Applied Molecular Engineering (CAME), Institute of Biochemistry, University of Salzburg.

03/1998-02/2000: Research Associate, Institute of Chemistry, Johannes Kepler University.

11/1999-06/2005: Visiting professor, University of Milano-Bicocca

05/2000-04/2002: Project leader, Institute of Chemistry, Johannes Kepler University.

09/2002-08/2005: Group leader, Institute of Chemistry, Johannes Kepler University.

11/2005-10/2008: Appointed Associate Professor, Department of Biotechnology and Biosciences, University of Milano-Bicocca.

2006-2010: Visiting professor, Scuola Internazionale Superiore di Studi Avanzati (SISSA), Trieste.

02/2006-03/2019: Scientific responsible of the Departmental Facility of Mass Spectrometry, Department of Biotechnology and Biosciences, University of Milano-Bicocca.

05/2006-09/2022: Visiting professor, Johannes Kepler University.

11/2008-present: Tenured Associate Professor, University of Milano-Bicocca.

Research grants

1992-1994: Postdoctoral fellowship of the Italian Government working at the Chemistry Department, Princeton University, Princeton, NJ.
Role in the project: Principal Investigator. 24 months.

1999-2000: Project n° 7 for international collaborations of the "Österreichischer akademischer Austauschdienst Büro für wissenschaftlich-technische Zusammenarbeit" (ÖAD) "Studies on the structure and folding of *Candida rugosa* lipase", exchange program with the Department of Biotechnology and Bioscience, University of Milano-Bicocca (Prof. Marina Lotti).
Role in the project: Principal Investigator. 24 months.

2000-2002: FWF project n° H147-CHE ("Charlotte-Bühler Habilitationsstipendium") Project title: "Investigation of protein structure, folding and stability by mass spectrometry techniques".
Role in the project: Principal Investigator. 24 months.

2002-2005: FWF project n° T135 ("Herta-Firnberg" position). Project title: "Folding and binding: protein behavior investigated by mass spectrometry".
Role in the project: Principal Investigator. 36 months.

2005-2006: Interregional European project REGINS n. 2E0006R "Stable enzymes as industrial catalysts (INBIO)".
Role in the project: Participant (PI: Prof. Marina Lotti). 18 months.

2006-2010: Grant of the University of Milano-Bicocca for a post-graduate research fellowship. Project title: "Analysis of phosphorylation states of Sic1 during the cell cycle of *Saccharomyces cerevisiae*".
Role in the project: Scientific Referent (recipient: Dr. Maria Šamalikova). 48 months.

2007-2013: Grant n° RBPR05ZK2Z of the Italian Government (FIRB) Italbionet -

Italian Bioinformatic Network.

Role in the project: Participant (PI: Prof. Lilia Alberghina). 72 months.

2009-2010: Grant of the Italian Government (PRIN) for the project “A multidisciplinary approach to the study of in vivo and vitro aggregation of polyglutamine-containing proteins. Role of molecular and environmental factors”.

Role in the project: Participant (PI: Prof. Paolo Tortora). 24 months.

2010-2012: Grant ASTIL of the Lombardy Region for the project “Diesel-Biotech: Biotechnological biodiesel production” Italian Regional Government in collaboration with Prof. Marina Lotti, University of Milano-Bicocca.

Role in the project: Participant (PI: Prof. Marina Lotti). 18 months.

2014-2017: Grant of the University of Milano-Bicocca for a post-graduate research fellowship.

Project title: “Aggregation mechanism of amyloid proteins involved in human pathologies”.

Role in the project: Scientific Referent (recipient: Dr. Carlo Santambrogio). 48 months.

2014-2017: Grant of the Italian Government (PRIN) for the project “From genomics to biotechnology: molecular mechanisms of cold adaptation and application of antifreeze proteins in industrial processes”.

Role in the project: Participant (PI: Prof. Marina Lotti). 36 months.

2014-2018: European COST Action BM1403 “Native Mass Spectrometry and Related Methods for Structural Biology”.

Role in the project: MC member representing Italy (PI: Prof. Frank Sobott).

2014-2018: European COST Action BM1405 “Non-globular proteins - from sequence to structure, function and application in molecular physiopathology (NGP-NET)”.

Role in the project: Participant (PI: Prof. Silvio Tosatto).

2015-2017: CARIPLO grant n. 2014-0478 for integrated research in industrial biotechnology “Chemically and biochemically modified polysaccharides from leguminous plants with improved biostability and versatile properties for industrial applications (POLIBIO)”.

Role in the project: Unit Director (PI: Dr. Yves Galante). 28 months.

2017-2020: Grant of the Italian Government (FFABBR_NAT) for the project “GRANDORI-Fund for basic research activity”.

Role in the project: Principal Investigator. 37 months.

2019-2023: CARIPLO grant “Osteocalcin in bone metabolism and aging: molecular mechanisms and biomarkers of the bone-energy crosstalk (OstMARK)”.

Role in the project: Participant (PI: Prof. Laura Cipolla). 36 months.

Conference and meeting organization

10/2005: Symposium "Mass Spectrometry of Biomolecules", First European Conference of Chemistry for Life Sciences, Rimini, Italy.

05/2007: Summer School “Materiali e Biomateriali Nanostrutturati”, Rome, Italy.

02/2008: Symposium "Mass-spectrometry tools for proteomics and protein science", University of Milano-Bicocca, Milan, Italy.

09/2015: Summer School on Organic Electronics: “From Semiconductor to Biomolecular Interfaces”, Villa Olmo, Como, Italy.

06/2019: “Native-MS” session, Annual ASMS Conference, Atlanta, GA.

09/2019: Summer School on “Intrinsically Disordered Proteins - From physical chemistry to pathogenic mechanisms”, Villa Grumello, Como, Italy.

Research experience and scientific interests (keywords)

Protein structure and dynamics

Protein folding, misfolding and aggregation

Protein-protein, protein-ligand and protein-nanoparticle interactions
Intrinsically disordered proteins
Neurodegeneration
Alpha-synuclein and Parkinson's disease
Protein engineering
Proteomics
Biomarker discovery
Native and ion-mobility mass spectrometry
Mechanism of protein ionization by electrospray
Analytical methods
Spectroscopic methods

International collaborations

Princeton University, NJ (Jannette Carey)
Juelich Research Center, Germany (Paolo Carloni, Giulia Rossetti)
University of South Florida, FL (Vladimir Uversky)
Martin-Luther University Halle-Wittenberg, Germany (Andrea Sinz)
Bielefeld University, Germany (Dario Anselmetti)
Johannes Kepler University, Austria (Norbert Mueller, Peter Hinterdorfer)
University of Leeds, UK (Frank Sobott)
CNRS Marseille, France (Sonia Longhi, Elisa Mileo, Evelina Gatti)
Autonomous University of Barcelona, Spain (Salvador Ventura)
Institute for Research in Biomedicine (IRB) Barcelona, Spain (Marta Vilaseca)
Catalan Institute of Nanoscience and Nanotechnology (ICN2) Barcelona, Spain (Victor Puntes)
University of South Bohemia, Czech Republic (Ruediger Ettrich, Iva Kuta Smatanova)
University of Nova Gorica, Slovenia (Ario De Marco)
Neurocenter of Southern Switzerland, Bellinzona, Switzerland (Giorgia Melli)
International School for Advanced Studies (SISSA), Trieste, Italy (Giuseppe Legname)

Bibliometric indexes

- 119 accepted full journal articles
- 4 book chapters
- More than 100 contributions to international conferences
- More than 50 invited talks
- H index (Scopus August 2023): 34
