ROADSHOW

WHY YOU SHOULD JOIN US

Explore our state-of-the-art instrumentation, scientific expertise, and collaborative opportunities with ISIS@MACH ITALIA – and discover how we can advance your research and development.

We connect researchers and industry partners with world-class analytical facilities to accelerate innovation across sectors – from Life Sciences to Engineering. Through our advanced Medium-Range Facilities (MRF), we provide unique opportunities for collaborative research, development of software tailored to MRF and LSF, specialist training, and transnational access to a diverse suite of cutting-edge techniques.
